

Business guide · Rider Friendly

Everything you need to sign up and get the most out of it, in a five-minute read.

How to sign up, step by step

1. **Open the link** in the invitation email. It is personal and valid for 15 days; if it expires, ask us for another one.
2. **Create your account:** your email and a password. Your business name and type are already filled in.
3. **Fill in your listing** from a computer or a phone: what to include is in the next section.
4. **Tap «Guardar cambios» (Save changes).** When the listing is complete (type, point on the map and at least one photo), it comes to us for review.
5. **We'll email you** as soon as we publish it. From then on you are on the app's map.

To log in again: motoclubes.es/negocio, with your email and password.

Note: the business panel is in Spanish for now. If anything is unclear, write to us and we'll help you.

What to put in your listing to look good

- **The cover photo** is the first one riders see. Best is the front of the building or the terrace, so they recognise the place when they arrive; avoid logos and photos of dishes. Up to 5 photos; they are resized automatically when you upload them.
- **The point on the map:** tap the map exactly where your door is, or drag the pin. It is the exact spot the app will take riders to.
- **The description:** one or two sentences, as you would tell a customer at the door.
- **What you offer riders:** tick what you really have (covered garage, space for helmets, drying for wet gear, group menu...). If you have something that is not on the list, write it under «Otros servicios» (Other services).
- **Opening hours by day**, midday and evening, and public holidays.
- **Your menu and set menus**, as a photo or a PDF, with whatever name you like.
- **If you are a hotel or guesthouse:** each room type with its bathroom, how many people it sleeps, how many you have and the price per night from; check-in and check-out times; whether you close for a season; and, if you have a dining room, the price per person for breakfast, lunch and dinner.
- **If you are a workshop:** tick what you do (motorcycle repairs, motorcycle tyres, roadside assistance or towing, whether you see riders passing through without an appointment, spare parts) and write under «Otros servicios» the brands you work with or MOT preparation. Opening hours are morning and afternoon, and under **«Tarifas y servicios» (Rates and services)** you upload your price list as a photo or a PDF.

At the bottom of the page you can see **how it will look in the app** while you fill it in.

What can't be included, and the review

We review every listing before publishing it, and also **every change you make afterwards**. The review is quick: usually in under an hour, and at most two. Meanwhile, the app keeps showing the previous version, and your panel shows «Pendiente de revisión» (Pending review). We email you when it is published; if something can't be published, we tell you why.

We don't publish:

- Photos that are not of your business, or with recognisable people without their permission.
- Offensive texts, or texts that speak badly of other businesses.
- Prices or offers you are not going to honour.
- Phone numbers, websites or emails that are not yours.

Removing an offer or a room is immediate: there is no need to wait for anyone.

Offers and riders' QR codes

Offers are optional, but they are what draws the most attention on the map: they appear next to your name.

1. **Create the offer** under «Ofertas» (Offers) in your panel: a riders' menu, a package with dinner and garage, a discount or a small gift. A hotel or guesthouse sees its own: a riders' package, a room discount, a small gift. A workshop too: a service at a **fixed price** («Oil and filter change · €69»), a **discount on a service** («10% off labour») or a **free extra** («tyre pressure and chain check»). You can add **a photo** to each offer: the dish, the room or a poster you already have.
2. **The rider gets their QR code** in the app, each their own, and shows it to you on arrival.
3. **You scan it** from «Escáner» (Scanner) in your panel, with your phone's camera. If it won't read, type the code shown under the QR. It is redeemed.
4. **Withdrawing an offer** is instant. QR codes riders have already issued **remain valid**, just as the offer was that day: some people plan their route months in advance. In your panel you can see how many are still unredeemed.

Your panel and the notifications you receive

- **Panel:** the month's redemptions, your offers and how many riders have your QR code not yet redeemed.
- **Perfil (Profile):** your listing, to change whenever you want (every change is reviewed before it goes live).
- **Ofertas (Offers):** create, pause or withdraw.
- **Escáner (Scanner):** to redeem QR codes.

By email you receive: the publication of your listing and of every change, and **a morning summary** only on days when there are new QR codes or redemptions.

What's coming: bookings and your app

We are preparing two things, with no date yet:

- **Bookings from the app.** Riders will request a room or a table for their dates, and you choose how: confirm each request with a tap, or mark on your calendar the days you have space and let the booking confirm itself. **Always under your control.**
- **An app for your business,** simple, that alerts you on your phone to every booking and every QR code.

We'll tell you about it before switching it on.

If something is missing or you have a problem

Write to us at **negocios@motoclubes.es**. We'll answer straight away, and Mario reads it.

And if you feel something is missing in your listing or your panel, tell us: Rider Friendly is being built with the first businesses, and what you tell us is what we build.
